

HAPPY NEW YEAR TO ALL

NEWS AND VIEWS...

And What Have You

By BOB CRAIG

Since this will be our final column for the year 1975 we would like to take this opportunity to wish all of our readers a very happy and prosperous new year.

We hope that this past year has been good to you and hope that the coming year might be even better.

There is a bill being considered by Congress now called "Child and Family Services Act" that has drawn some rather unusual opposition. From what we can find out a massive and somewhat mysterious form of lobbying is being conducted by a faceless group in the schools throughout the land.

We first saw a copy of the attack on the bill that was being passed around the school here. We next saw it crop up in editorial columns of a couple of West Texas newspapers.

At first we were going to pick the thing up and run it in this column but decided to call Congressman Omar Burleson's office in Abilene to find out more about it. Before we could get a copy of the bill from his office, Helen Anderson wrote a column in the Abilene Reporter-News on the bill.

According to the "flyer" that is being passed around through the schools one would have to believe that this is the most dangerous piece of legislation ever proposed. According to this unknown group lobbying against this bill it would take away the right of parents to raise their own children and transfer this right to some federal agency.

We just finished reading the entire bill which has 123 sponsors in the House and nowhere in it can we find all of the things that the flyer says it contains. For the most part the flyer quotes from the Congressional Record rather than from the bill. And any member of Congress can have almost anything printed in the Record which makes it a very poor source of information.

According to those opposing the bill it would contain a Child Advocacy Clause, which is described in the Record as "If, in the judgment of those who are in charge of such a program, The State by way of the Secretary of Health, Education and Welfare, parents are not doing a good job, the advocate (a specialist appointed by the government) would enter the home and direct the education, even within the home. And if the parent would object, the authority of the home would, De Facto, be transferred to those advocated.

While those opposing this bill make this kind of claim the bill itself repeatedly says, "must be provided on a voluntary basis only to children whose parents or legal guardians request such services..."

Among the claims being made by those opposing the bill are these:

1. "All children have the right of Protection from, and compensation for, the consequences of any inadequacies in their homes and backgrounds."

2. "Children have the right to protection from any excessive claims made on them by their parents or authority." (This supposedly means that parents could not make a child do chores around the home.)

3. "Children have the right to

WEEKLY COLUMN—

'Tejas 1876' Looks At Early Texas

Whatever was going on in Texas a hundred years ago? "Washington County: The Brenham Opera House is nearly completed, and is indeed a fine structure."

"Fort Worth-For Sale: 80 acres of timber, about five miles from here. Price is \$6 per acre."

"Navarro County-Corsicana shipped from Sept. 1 to Dec. 29, 10,053 bales of cotton, 33,700 pounds of wool, 58,403 hides and 1,383 head of livestock."

It all happened in 1876. Texans will learn more about their state as it was during America's Centennial in a new column to be distributed through the Texas Press Association.

It is called "Tejas 1876," and the material has been compiled from 100-year-old newspaper accounts by the Department of Mass Communications at Texas Tech University, Lubbock.

Sarah J. Stone, now a member of the faculty at West Texas State University, was the principal researcher for the project while she was a graduate student at Texas Tech. She earned the master of arts degree in mass communications last August.

The column takes a week at a time and begins with Jan. 1, 1876, with this entry:

"Fort Worth-Happy New Year-this is the first day of January, 1876. Quite a number of drunks and downs

Craig cited a number of increases in postage, labor and newsprint costs over the past few years as reasons for the increase.

BUDGET DECORATING

You don't have to destroy your budget to decorate your home.

In fact, you can create great-looking accessories easily and economically, when you wake up to the pretty potential of sheets.

Today, they come in a wide variety of attractive colors and mix and match patterns, many with the look of famous fashion designs. The cost per square yard of sheeting is far less than that of almost any other fabric, and they're both durable and easy to clean.

Besides, you'll be able to point with pride at the finished product, when you've done-it-yourself.

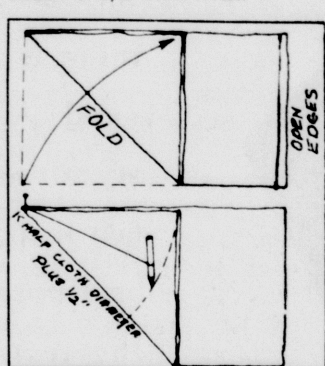

For example, you can turn the tables on your table settings by getting a tablecloth out of a sheet or bedspread. Just measure the table's diameter, add to that twice the length you want the cloth to drop down on the sides and one more inch for the hem. For a cloth up to 65 inches in diameter,

you'll need a twin sheet; up to 80 inches, a double sheet; up to 89 inches, queensize, and up to 107 inches, kingsize.

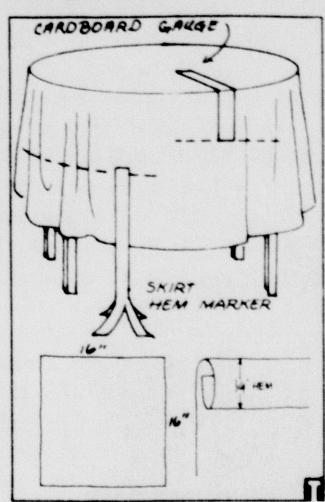

Fold the sheet in half lengthwise and then fold crosswise to form a rectangle four layers thick. Fold up one corner to the other side forming a triangle and rectangle combination with all the open edges facing the side opposite the fold.

Cut a non-stretchy cord to serve as a compass. Knot one end and pin with corsage pin to fabric. Tie a pencil on the other end. Length of cord should be half the diameter you want, plus 1/2 inch. Mark the outer edge of cloth and cut. Make a 1/2 inch hem.

The extra fabric can easily be turned into a set of matching napkins. Cut the fabric into squares of the

size you want and press a 1/4 inch hem all around. Turn the hem another 1/4 inch and stitch.

You can get more such exciting ideas on creating pillow covers, chair seats, folding screens, dust ruffles, headboards, picture frames, plant stands, bath accessories, wall coverings, shades, draperies and table runners by sending \$1 to Fieldcrest, 60 West 40th St., New York, N.Y. 10018 for *Decorating Digest*.

It could help give your home new life, without killing the family economy.

FRENCH COOKING MADE EASY

CHOCOLATE MOUSSE

The French know how to make the end of the meal light and reviving or make it a spectacular finale.

Chocolate Mousse is an ideal ending to a heavy meal. Each fluffy spoonful is bursting with chocolate. This version calls for rich, flavorful Blue Bonnet Margarine. Tests conducted in European cooking schools comparing Blue Bonnet and butter found no difference in performance on flavor.

CHOCOLATE MOUSSE

12 ladyfingers, split
3/4 cup (1-1/2 sticks) Blue Bonnet Margarine
1/2 cup sugar
6 egg yolks
1-1/2 teaspoons vanilla
1 teaspoon rum extract

1 cup (1 6-ounce package) semi-sweet chocolate pieces, melted
6 egg whites
1/2 cup coarsely chopped pecans

Line a 9 x 5 x 3-inch loaf pan with waxed paper. Arrange split ladyfingers around sides, then on bottom of pan. (1) Cream margarine, gradually add sugar and cream together until light and fluffy. (2) Add unbeaten egg yolks, one at a time, beat until smooth after each addition. Thoroughly blend in vanilla, rum extract, and melted semi-sweet chocolate pieces. Beat egg whites until stiff but not dry; fold into chocolate mixture. (3) Fold in coarsely chopped pecans. Pour into pan lined with ladyfingers. Refrigerate overnight.

To serve, invert on serving plate; remove waxed paper. Decorate top with whipped cream. Cut into thin slices to serve (4) —mousse is very rich. Makes about 12 to 15 servings.

FIFTY YEARS AGO
(December 25, 1925)

Tuesday about one o'clock, fire almost completely destroyed the dairy house of the Gassaway Dairy in North Hamlin. The dairy is on the outskirts of the fire limits and there was no way of connecting the hose to fight the fire. However there was a tank that had connection with a small line, and this was full of water, thus enabling those who helped fight the fire to do effective work and save the residence from burning. Although there was considerable damage, the dairy was able to take care of all customers that night.

The Hamlin High School Alumni Association will hold its Fourth Annual Banquet the thirty-first of Dec., the regular date, this year, announced Roy Wilson, president, yesterday. For the past three years the attendance has numbered between twenty and twenty-five, but a larger number is expected this year.

About ten thirty A.M. last Saturday, Attorney and Mrs. Clem Calhoun were driving west of Hamlin toward Rotan, about five miles out, when their car turned over in a ditch and Mr. Calhoun was quite severely cut on the right side of his head. Mrs. Calhoun was driving. It is said the car went into the ditch on her side, throwing Mr. Calhoun against the mirror and causing bad cuts and the loss of considerable blood. This took place at the Barnett farm, and the boys came to the rescue, and brought the couple to the home of Mr. and Mrs. Tumlin, where medical treatment was received. It will be noticed in another column of this paper that our District Attorney was just recently married to a Munday girl. This little car wreck could have been worse, as it is only a scalp wound on the head of a strong man, and fortunately his wife escaped unhurt.

TWENTY YEARS AGO
(December 30, 1955)

First commercial supply of polio vaccine injections made available to the Hamlin Memorial Hospital for young people of the Hamlin area arrived last week, according to Wesley Nail, business manager of the Hospital.

Numbers of Hamlin area football fans were in the stands Monday afternoon at the Fair Park stadium in Abilene when Stamford High School's Bulldogs took their first state Class AA championship from a vaunted Hillsboro Eagle team by a 34 to 7 count.

Two youths, Clifford Green, 16, and James William Cork, 8, were hurt with firecrackers during holidays.

The Rev. Darris L. Egger, pastor of the First Methodist Church gave an interesting review of the book, "Papa Was a Preacher" by Edwin Porter at the Wednesday noon luncheon of Hamlin Rotary Club.

Members of the First Methodist Church are making plans for the annual church-wide mission study for three days, January 9, 10 and 11, according to the pastor, Rev. Darris L. Egger.

A recipe for orange cake, which won first prize at the Panhandle-South Plains Fair for Mrs. J. T. Hart of Lubbock, the former Grace Harbert of Hamlin, has brought additional honors for the Lubbock housewife.

Mrs. Hart and her husband, owner of a wholesale feed store in Lubbock, left several days ago for a three-day visit to New York City where Mrs. Hart was to pose for a wellknown shortening firm.

Mrs. Hart is the daughter of Mrs. Lala Harbert of Northwest Avenue D.

TEN YEARS AGO
(December 30, 1965)

A Watch Night service will be held at 11:15 p.m. Friday at First Methodist Church, according to the pastor, Rev. Royce Womack.

The sanctuary will be open all evening and the special service will close with communion.

Six students received caps in ceremonies by the Hamlin Extension of Jones County School of Vocational Nursing Monday evening in the Fellowship Hall of the First Methodist Church.

The students were Mmes. Berta Bosse, Sue Cooper, Mary Griffin, Elise McComack, Wanda Neal and Mary Weatherman.

The clerical and engineering departments of T. P. Oil Co. were moved to Abilene Dec. 18 from the offices northwest of Hamlin. The

production department for the Hamlin District, under the supervision of Frank Cooksey recently transferred here from the Dallas general office, will remain here. The Hamlin District includes Hamlin, Lawn, Haskell and Aspermont.

Employees here will include Cooksey, production superintendent, W. E. Roberson, production foreman, H. L. Mehaffey, assistant production foreman, L. W. Shivers, production foreman, and all pumpers.

Those transferring to the Abilene office are Dean Witt, Everett Gibson, Glenn Simons and Jim Brandon.

freedom from religious or political indoctrination."

4). "Children shall have the freedom to make complaints about teachers, parents and others without fear of reprisals."

We do not know where these people found all of these things but it certainly was not from the bill before Congress.

The bill, HR 2966, would set up day care and health services centers for children, and in some cases, for parents.

It would specifically prohibit any practice which would "infringe or usurp the moral and legal responsibilities of parents or guardians" and would be entirely voluntary for the participants.

The bill is probably a good one but it also is probably one that we cannot afford at this time. It is estimated to cost \$150 million in 1976 and would increase to \$1 billion a year in 1978.

I am still amazed how some things that are so completely false can be passed around for the truth without being questioned.

Services Held Here
Saturday for Mrs.
Antonio Gonzalez

Mrs. Antonio Gonzales, 87, a native of Mexico who had lived on Route 2 for 68 years, died at 9:30 a.m. Dec. 25 at Hamlin Memorial Hospital where she was pronounced dead on arrival.

TIME...

As the old year passes and the new begins, we are more conscious of time itself than we are at any other time of the year.

These are days when most everything is geared to a higher speed. Automobiles are faster, aircraft set new records. Production is speeded up to make the best possible product in the shortest time . . . but this is a good time to slow down and review the past and to make plans for the future. Think of the past, but only of how you can improve on it. Plan now for the future. Make sure that you will have time for the Lord this New Year. Start now to attend church, make it a regular habit.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

You may never live it down, but you can sure live it up.

Sometimes people who don't buy U.S. Savings Bonds say funny things to people who do.

"No will power?"

"Scared of the future?"

"You call that interest?"

"You know what Louie said about them?"

So who's Louie and who cares?

Fact is that U.S. Savings Bonds now offer you 6% interest when held to 5-year maturity. And nothing is safer.

You can even save for them automatically through your Payroll Savings Plan at work. What could be easier?

You're the one who'll live it up. Because you've got it.

Series F Bonds pay 6% interest when held to maturity of 5 years (4 1/2% the first year). Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.

TEXAS 1876

January 1 - 7, 1876

FORT WORTH — Happy New Year — this is the first day of January, 1876. Quite a number of drunks and downs were reported for Christmas Week, but not a single fight, as far as we have learned. Truly Fort Worth is a peaceable town.

WACO — Marshall & Early's block was burned on New Year's Eve with the entire stock of goods lost. Loss totalled \$20,000; insurance on block \$6,000; on stock \$5,000. Cause unknown.

HOUSTON — The meeting of the opponents to the new constitution called at Perkin's Theater at noon today was a complete failure. The Houston reporter of the Telegraph and one of the publishers of the Age were the only persons present. Two of those favor the instrument and the other is on the fence.

GALVESTON — This week, month and year closed simultaneously upon a dull cotton market.

BRENNHAM — There are 14 prisoners in our county jail, and nine of the number are charged with hog stealing. This amusement costs the taxpayers a dear price.

GALVESTON — Two dead bodies have been discovered in a cesspool in the rear of, and on the outside of the City Hospital grounds. Although the bodies were too far decomposed to ascertain their identities, it was obvious from the state of the corpses that they had been used as subjects in the dissecting room. An investigation has been ordered in the "shocking affair."

FORT WORTH — There is something wrong at the Dallas post office. Letters have been received here recently 10 days after they were mailed and postmarked at Dallas.

NAVARRO COUNTY — Corsicana shipped from Sept. 1 to Dec. 29, 10,053 bales of cotton, 33,700 pounds of wool, 58,403 hides and 1,383 head of live stock.

NACOGDOCHES COUNTY — The bones of a large mastadon have been discovered near Nacogdoches.

ADVERTISED IN LEADING TEXAS NEWSPAPERS — "The Great Tonic:" The West India Stomach Bitters — Distilled from vegetable ingredients — it is guaranteed to improve the appetite, increase the quantity of blood and provide a swift and certain cure for dyspepsia, liver complaint, indigestion, intermittent fever, fever and ague, flux, colics and female problems.

NEWS FROM
OLD GLORY
By BERNICE D. WHITE

Something was added to the spirit of the season when folks here awakened on Christmas morning to find the ground covered with snow that fell the night before. Although the snow did not stay around long before it thawed, farmers still felt it was a Christmas present because the moisture it brought was badly needed on the wheat fields.

Mr. and Mrs. Dale Letz of Stamford announced the arrival of a new baby boy on Dec. 22. The baby's name is Terry Jason, and the two sets of grandparents who welcomed this little fellow for Christmas are Mr. and Mrs. Eugene Vahlenkamp and Mr. and Mrs. Allen Letz who live here. Mrs. Velda Meier of Sagerton is the maternal great-grandmother, and Mr. and Mrs. Martin Letz and Mr. and Mrs. Herbert Klump are the paternal great-grandparents.

Mr. and Mrs. Eddie Jones, Debbie, and Brian were here from Oklahoma last Saturday visiting with friends and stopped by to visit with a former neighbor, Mrs. Katie Gerloff.

Mrs. Vera Beil attended the funeral of a brother-in-law, John Burrows of Friona, on Dec. 24. Mrs. Beil stayed on after the funeral for several days to visit with relatives in Friona and Lubbock.

Spending Up

State expenditures during the first quarter of the new state fiscal year were \$1.75 billion — up 28 per cent over the same period last year.

More than half the increase went to education, according to Comptroller Bob Bullock.

Tax collections also were up — 10 per cent over the previous year. Biggest jump in revenues was in federal funding, up 29 per cent.

Greenbug Control On Small Grains Urged

Small grain producers need to be on the lookout for rapidly growing greenbug populations in their fields, says Kirby Clayton, County agent for the Texas Agricultural Extension Service.

Effective insecticide controls of greenbugs on small grains are methyl parathion, parathion, malathion, disulfoton (Disyston) and dimethoate. With parathion and methyl parathion, fields should not be grazed for 15 days after growth and the presence or absence of parasites and predators. Irrigated small grains can withstand greater populations of greenbugs than those grown under dryland conditions.

The bugs, which are about 1-16 inch long and light green with a dark green stripe down their back, inject a toxin into plants while feeding on them. This causes the plant to turn yellow and may eventually die. Any type of stress such as lack of moisture will increase the damage done by greenbugs.

"In some cases," says Clayton, "greenbugs have become resistant to insecticides. Insecticide control failure may be due to application, temperature or coverage problems."

Clayton advises checking fields at regular intervals during the growing season and at least once a week if the greenbug population is increasing.

Before using an insecticide, a producer should consider such things as plant vigor, moisture conditions, stage of

use. Malathion is less toxic and grazing can commence after seven days. Dimethoate should be used for wheat only and grazing can start after 14 days. Disulfoton should not be used on small grain fields which are grazed with livestock.

Since greenbug populations can increase rapidly, regular field checks are the key to heading off severe damage, points out Clayton.

FRANCIS SCOTT KEY
Young lawyer during War of 1812. In an effort to obtain the release of a friend who was a prisoner of the British, Key took a rowboat out to a British naval vessel which was in the process of shelling Fort McHenry in Baltimore harbor. Key obtained his friend's release, but was detained overnight on the British ship while the shelling continued. When morning came and he saw the American flag still flying, he wrote a poem to commemorate the event... The Star Spangled Banner.
